Accounting

TICKET#	SUMMARY
3332	Accounting report does not show correct entries when using a timeframe filter.
3358	Accounting report is broken when the filtered result is empty.

Engine Room Log

TICKET#	SUMMARY
447	To be able to see abnormalities directly when doing rounds/logs it's necessary to see the latest date and value of a measure point.
2583	Please add a preset filter to Round History so that canceled rounds are hidden by default.
3185	Make it possible to assign departments to ERLog rounds.
3186	Add department related round permissions (can complete rounds from other departments or not).
3187	Add a department filter on the rounds screen.
3240	When completing a round with multiple entry points linked to the same component merge the history.
3298	ERLog round manager design is broken.
3302	Round with interval does not calculate next due date correctly when performed by IDEA.Mobile.

General

TICKET#	SUMMARY
3064	The sidebar hides on "edit dropdown fields" page even if "toggle automatically" feature is switched off.
3252	Show a notification on the login screen when a new replicator version is available.
3270	The database size increases significantly in one day.
3271	Updating files (documents, PDFs, pictures) won't work if filename already exists.
3387	Implement an additional webpart showing latest IDEA.NET news on home screen.

Maintenance

TICKET#	SUMMARY
1539	Don't let the program consume spare parts automatically if a job has by default spare parts. Allow template spare parts with zero quantity.
2208	Rename "Maintenance Tasks" to "Maintenance Plan/Tasks".

Permission Manager

TICKET#	SUMMARY
2055	Please add a permission to change the status of a user.

Reminder

TICKET#	SUMMARY
3239	Add reminders showing orders having status 1, 2, 3 and 4 (by department).

Reporting

TICKET#	SUMMARY
3155	When trying to print out the "Inventory List" report the user gets an "access denied" error.
3296	Show foreign items in "Outstanding Orders" report.

Service

TICKET#	SUMMARY
3279	Improve thumbnail quality.
3361	The "ClearLogTable" task sometimes deletes all entries from logon table.

Vessel Database

TICKET#	SUMMARY
151	Make it possible to create links to items in the vessel database. Show these links also on related reports and screens (e.g. when completing maintenance tasks).
3278	Some functions do no longer work in the newest Chrome (version 54.0.2840.71). Neither the min/max item colors will change accordingly without reloading the complete vessel database nor does the options window appear when you change the items quantity.

Voyage Management

TICKET#	SUMMARY
3238	Test filter on "routes" screen.
