Mobile

| TICKET# | SUMMARY |
|-------------|---|
| 3159 | Create PUT resources to be able to upload documents to IDEA.NET. |
| 3519 | Engine room log related resources try to use the wrong tablename. |

Permission Manager

| TICKET# | SUMMARY |
|-------------|---|
| 3638 | The accounting module uses the same page for document downloads as the drills module. This needs to be changed and the accounting module needs its own download page. |

Reporting

| TICKET# | SUMMARY |
|-------------|---|
| 1956 | "Component history" report logs an error message if there is no data to show. |

Safety Documents

| TICKET# | SUMMARY |
|-------------|--|
| 3800 | Cannot upload safety documents when SQL server is running on different machine than the webserver. |

Service

| TICKET# | SUMMARY |
|-------------|--|
| 3750 | The "ThumbnailWatcher" sometimes stops to process files. |
| 3810 | Perform the license check before other tasks. |
| 3811 | Make the license check interval customizable. |
| 3812 | Assign a version number to each task. |

Stock Control

| TICKET# | SUMMARY |
|-------------|--|
| 1246 | Updated price can not be set individually and won't change the price actually. |
| 2869 | Synchronized department-wide shopping cart. |
| 2993 | Please add a "add to shoppingcart" button directly in the inventory list. |
| 3381 | The "purchase order report" doesn't show foreign items. |
| 3452 | "Issued by" column show internal username (instead of full name) on purchasing report. |
| 3774 | XML export generates empty files once foreign items are used in the deliverables tab. |

Vessel Database

| TICKET# | SUMMARY |
|-------------|--|
| 225 | Implement up/down buttons to change quantities. |
| 2866 | German word "Suchkategorie" is used in spares tab of job description. |
| 3153 | Color of inventory item icon just turns grey when the quantity is greater than the minimum stock level. |
| 3563 | When entering new component data and generating a new manufacturer/supplier you will loose your previously entered data. |
| 3599 | Cut & paste support for component & item pictures. Move them into a "pictures" folder by default. |
| 3622 | Changing the master storage will overwrite existing storage. |
| 3746 | Document subfolder shows the expand button even without documents in the folder. |
